ANNEX 1

**ANNEX**

**to the**

**COMMISSION IMPLEMENTING REGULATION (EU) .../...**

**amending Implementing Regulation (EU) No 540/2011 as regards the conditions of approval of the active substance bifenthrin**

## **ANNEX**

**to the**

### **COMMISSION IMPLEMENTING REGULATION (EU) .../...**

#### **amending Implementing Regulation (EU) No 540/2011 as regards the conditions of approval of the active substance bifenthrin**

The column 'Specific provisions' of row 23, bifenthrin, of Part B of the Annex to Implementing Regulation (EU) No 540/2011 is replaced by the following:

##### **'PART A**

Only uses as insecticide in greenhouses with a permanent structure may be authorised.

##### **PART B**

For the implementation of the uniform principles, as referred to in Article 29(6) of Regulation (EC) No 1107/2009, the conclusions of the review report on bifenthrin, and in particular Appendices I and II thereof, as finalised in the Standing Committee on Plants, Animals, Food and Feed shall be taken into account.

In this overall assessment, Member States must pay particular attention to:

- (a) releases from greenhouses, such as condensation water, drain water, soil or artificial substrate, in order to preclude risks to aquatic and other non-target organisms;
- (b) the protection of pollinator colonies purposely placed in the greenhouse;
- (c) the protection of operators and workers, ensuring that conditions of use include the application of adequate personal protective equipment, where appropriate.

Conditions of authorisation shall include risk mitigation measures and provide for adequate labelling of plant protection products.'
